Subject: BBA - files for Seattle - email 1

Hi all,

This is the first of 3 emails you should be receiving from me in the next hour so, each containing files for our Seattle meeting later this week. These emails will contain:

Email 1: Meeting agenda, assessment schedule, working outline (12.16.11 version)

Email 2: Working draft of the assessment - these are the pieces everyone sent in over the past few days, cobbled into what I hope is a somewhat coherent structure (roughly based on the working outline). I apologize in advance for any missing material, errors in placement, etc. - we can get all of these straightened out this week.

Email 3: Additional files - these are files that I don't think we're sure yet where they will fit into the assessment. One of things to address at the meeting will be where these files will be pulled into specific sections, where they will be stand alone pieces (e.g., appendices), etc. Barb & Bob - I included your mitigation and environmental geochemistry sections here, because I think Phil brought a lot of this material into the mine scenario, but did not have time to make sure everything is captured (another task for Seattle).

Please let me know if I missed anyone on the team list, or if you have any other questions.

See you soon!
Kate
